

60-Second Air Meter Pre-Pour Check

Complete these 6 checks to avoid a rejected batch.

Check each box to confirm your Air Meter is Field-Ready:

- | | |
|---|--|
| <input type="checkbox"/> Valves move smoothly and freely. | <input type="checkbox"/> Pump builds pressure easily. |
| <input type="checkbox"/> O-rings are soft and crack-free. | <input type="checkbox"/> Gauge needle rests exactly at zero. |
| <input type="checkbox"/> Chamber is clean and clear of debris. | <input type="checkbox"/> Clamps snap shut with firm pressure. |

Missing a checkmark? [Contact our team](#) to schedule a professional repair drop-off at our Mississauga location, or to order replacement parts today.
