STARTING EARLY FOR 2026-2027!

WINTER SPECIAL

Servicing for Most Gauges

CLICK FOR MORE INFO

Except Troxler Plus/Enhanced

Stuart Hunt & Associates is launching our Annual Winter Special early again this year!

That means you have more time to take advantage of savings and get ahead of your maintenance needs.

Winter construction downtime is the perfect opportunity to have your nuclear gauges professionally serviced and calibrated—so they're ready to perform when the busy season returns.

Don't let overdue maintenance slow you down in the spring. Use your winter downtime wisely, save on service, and start the season ready to go!

MORE TIME TO SAVE!

November 1, 2026

~~**December 1, 2026**~~

Until March 31, 2027

Send your survey meter in for annual calibration along with your gauge!*

Winter Special Service Includes:

- NIST traceable three-block calibration
- Independent validator verification
- Electronic diagnostic
- Leak test analysis
- Cleaning & lubrication of the gauge
- Replacement of common wear parts (top cap bumper, seal wiper, & scraper ring)

**Survey meter calibration not included in winter special price.*
